* Ties Meet Record

** New Meet Record

Notes: This meet was originally intended to be a triangular with the City Regional Meet to be contested on May 22nd, but bad weather all week led the City Coaches to vote to advance the top two in this meet to the State. The exception was Carleton who finished fifth in the 220 (because he was in the "slow heat" he could not be placed in the top four even though his time was the best of the day) who would replace Central's Beaudette at State.
